- Any fruits, nuts, vegetables, or berries that are canned or dried or frozen below -17.8 °C. (0 °F.) are not regulated articles.
- (b) Soil within the drip area of plants that are producing or have produced the fruits, nuts, vegetables, or berries listed in paragraph (a) of this section.
- (c) Any other product, article, or means of conveyance not covered by paragraph (a) or (b) of this section that an inspector determines presents a risk of spread of the Oriental fruit fly and notifies the person in possession of it that the product, article, or means of conveyance is subject to the restrictions of this subpart.

§ 301.93-3 Quarantined areas.

(a) Except as otherwise provided in paragraph (b) of this section, the Administrator will list as a quarantined area in paragraph (c) of this section each State, or each portion of a State, in which the Oriental fruit fly has been found by an inspector, in which the Administrator has reason to believe that the Oriental fruit fly is present, or that

the Administrator considers necessary to regulate because of its proximity to the Oriental fruit fly or its inseparability for quarantine enforcement purposes from localities in which the Oriental fruit fly has been found. Less than an entire State will be designated as a quarantined area only if the Administrator determines that:

(1) The State has adopted and is enforcing restrictions on the intrastate movement of the regulated articles that are substantially the same as those imposed by this subpart on the interstate movement of regulated articles; and

(2) The designation of less than the entire State as a quarantined area will prevent the interstate spread of the Oriental fruit fly.

(b) The Administrator or an inspector may temporarily designate any nonquarantined area in a State as a quarantined area in accordance with the criteria specified in paragraph (a) of this section for listing quarantined areas. The Administrator will give written notice of this temporary designation to the owner or person in possession of the nonquarantined area; thereafter, the interstate movement of any regulated article from an area temporarily designated as a quarantined area is subject to this subpart. As soon as practicable, this area will be added to the list in paragraph (c) of this section or the designation will be terminated by the Administrator or an inspector. The owner or person in possession of an area for which designation is terminated will be given notice of the termination as soon as practicable.

(c) The areas described below are designated as quarantined areas:

CALIFORNIA

Los Angeles County. That portion of Los Angeles County in the Sun Valley area bounded by a line drawn as follows: Beginning at the intersection of Van Nuys Boulevard and Interstate Highway 210; then southeast along Interstate Highway 210 to La Tuna Canyon Road; then south along an imaginary line to the intersection of Allen Avenue and Mountain Drive; then southeast along Mountain Drive to Grandview Avenue; then southwest

along Grandview Avenue to San Fernando Boulevard; then southeast along San Fernando Boulevard to State Highway 134; then west along State Highway 134 to Forest Lawn Drive; then southwest along Forest Lawn Drive to Barham Boulevard; then south along Barham Boulevard to Interstate Highway 101; then southeast along Interstate Highway 101 to Mulholland Drive; then west along Mulholland Drive to Coldwater Canyon Avenue; then north along Coldwater Canyon Avenue to Ventura Boulevard; then northwest along Ventura Boulevard to Van Nuys Boulevard; then north and northeast along Van Nuys Boulevard to the point of beginning.

§301.93-4 Conditions governing the interstate movement of regulated articles from quarantined areas.

Any regulated article may be moved interstate from a quarantined area only if moved under the following conditions:²

(a) With a certificate or limited permit issued and attached in accordance with §§301.93-5 and 301.93-8 of this subpart;

(b) Without a certificate or limited permit, if:

(1) The regulated article originated outside of any quarantined area and is moved directly through (without stopping except for refueling, or for traffic conditions, such as traffic lights or stop signs) the quarantined area in an enclosed vehicle or is completely enclosed by a covering adequate to prevent access by Oriental fruit flies (such as canvas, plastic, or closely woven cloth) while moving through the quarantined area; and

(2) The point of origin of the regulated article is indicated on the waybill, and the enclosed vehicle or the enclosure that contains the regulated article is not opened, unpacked, or unloaded in the quarantined area.

²Requirements under all other applicable Federal domestic plant quarantines and regulations must also be met.
